RV TECHNICAL BASICS SEMINAR

Learn How to Assist Your Customers and Boost Your Customer's RV'ing Experience!

Want to boost your customer's RVing experience? Join us on Tuesday, May 6, 2025, at the Rosen Shingle Creek for a valuable special early session with an RV Industry Association Representative from the RV Technical Institute. Park operators/managers are often the first to tend to a guest experiencing technical difficulties with their RV. This session will teach some basics to help get guests safely on the road, save a vacation that may be going downhill fast, and make your campground stand out as one of the best with customer service! The seminar registration is separate from the FRVCA conference registration.

THE SEMINAR WILL INCLUDE:

- Basic Electricity Testing & Safety Wattage, Voltage and Amperage.
- What is lost when using a dog bone?
- Tripping breakers on a 30 Amp camper, replacing fuses, where are the circuit breakers located?
- How to hook up Cable TV, how to turn off the antenna amplifier, Wi-Fi, satellite signal, and set up.
- What a generator ATO switch is, what happens when it goes bad. How to check.
- Basic water systems.
- LP system.
- What appliances can be used at the same time in season, appliances troubleshooting - (HVAC, water heater, furnace trouble and refrigerator trouble shooting quick checks).
- Broken awnings both electric and manual.
- Getting a slide room back in (6 different types).
- Troubleshooting inoperable jacks and Landing gear.
- Auto levelers jack not working correctly, how to override leveling jack.
- Chassis, Hydraulics, and Towing.
